"Headlights" and "Carhartts" in all sizes, 32 to 52, in coveralls and bib overalls, khaki and blue.

## B. M. ROBERTS

THE MAN WHO DOES THINGS

### Masons to Meet On Mt. Rundle

Cascade Lodge No. 5, A. F. and A. M., of Banff, are holding a special communication on the summit of Mount Rundle, Monday, September 7. General invitations have been issued to the Masons throughout the province, Masons who are visiting in Banff, and would care to attend, should communicate with W. E. Ward, secretary of the lodge.

The climb will start at 7 o'clock in the morning. A camp will be established at timber line, where lunch will be served. This is a unique lodge meeting and it is expected that a large number will attend.

Masons not acquainted with mountaineering, or the impressiveness of the beauty and sil-

ence of these mountain peaks, will find it doubly interesting during an impressive Masonic meeting amid nature's setting.

### Parents Take Note

Attention is drawn to the notice elsewhere in this issue from the school board with reference to the fact that no new classes will be formed during this year, which necessitates all qualified children to be on hand on September 8th or wait until school opens after the summer holidays next year. The attitude of the board is so rational in this matter that parents neglecting to follow the instructions given will have only themselves to blame if their children are not included in the classes now being formed.

### W.I. Offer Prizes For Flowers

The Champion W. I. meet at the home of Mrs. B. Woodhull on Tuesday afternoon September 8th. All members try and be present. This is the "Children's Flower Show." Every child in the community having flowers raised by themselves are welcome to enter this competition. A complete prize list will be given elsewhere in the Chronicle.

Best collection House Plants (not less than three) 50c, 25c.  
Best collection Cut Flowers 75, 50, 25c.  
Best collection Wild Flowers 75, 50, 25c.  
Best Pansies 1 dozen 50, 25c.  
Best Poppies 1 dozen 50, 25c.  
Best Asters 1 dozen 50, 25c.  
Best collection Sweet Peas 75, 50c.  
Most artistic arrangement of nasturtiums 75, 50c.

Best Floral table decoration 75, 25c.  
Best collection Pressed Wild Flowers 75, 50, 25c.  
Kindly classify flowers for exhibit.

### See Fruit Stock at Nerison's

Gunder Nerison has a complete assortment of fruit at prices which compare favorably with anything in town. Call and see him before purchasing.

W. Diemert is finishing and will shortly move into a house opposite Kramer's garage.

F. J. Clapp is around again after being confined to the house for several days with an attack of flu.

### CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, September 6.  
11 a.m.—Sunday School.  
7.30 p.m.—Public worship. Mr. Lee will preach. You are cordially invited to attend.

"We're ready to serve you"  
The Chronicle, Champion.

Barbara La Marr in "Sandra."

Friday @ Saturday  
Sept. 7-8

Follow her to the pleasure palaces of Europe—find romance with her when men lay their hearts at her feet—know the thrill of triumph when all the continent toasts her but see a greater joy of heart when the first true love calls her back. Sandra was one woman by day—and a different woman by night—but at all times different from other women.

Here Next Wednesday, September 9th, "LAST MAN ON EARTH."

Coming Next Friday and Saturday, Sept. 14-15, "CAPTAIN BLOOD," the Greatest Love Story Ever Told.

WORLD HAPPENINGS  
BRIEFLY TOLD

The Kingston branch of the Great War Veterans, by a formal vote, endorsed the proposed amalgamation with the existing veterans' organizations in Canada.

Emancipation of Turkish women has been made complete with abolition of police powers of oversight over them. Hereafter women will be able to wear what clothes they like.

An Exchange Telegraph dispatch from Calcutta says 100 persons were drowned in the Maghna River, near Gangabali, by the capsizing of a ferry boat during a storm.

It has been decided not to call a special session of parliament for ratification of the Belgian debt funding agreement reached in Washington, but to postpone the discussion until the parliament re-opens in November.

Lord Bradbury, former representative on the reparations commission and one of the foremost authorities on European finance, declares that France is able to pay about 60 per cent of her debts to Britain and the United States.

Mr. Banks Amery, of the overseas settlement department of the British government, interviewed on his arrival at Sydney, Australia, said the British government was prepared to contribute largely toward the assistance of emigrants to Australia.

What cottonseed cake is a world's record price for a bull was paid at the annual cattle show, Buenos Aires, Argentina, showing Shorthorn named Fadhil, brought \$60,000. Fadhil's father, when sold some time ago, brought \$41,000.

This Western, a 70-year-old English woman, who has lived in British India for many years, made an appeal record for women by climbing the north slope of the Wetherdown. A child of more than twelve thousand feet, which she reached by endurance.

Night hundred thousand motor cars from the United States entered Canada at Niagara Falls during June, July and August. It was estimated, influx of United States tourists into the Dominion is reported to be 10 per cent greater than last year, particularly at Windsor, Ont.

Mount Vesuvius has resumed extraordinary activity, the volcano expelling great quantities of ash and lightning, up the whole countryside at night. Authorities at the volcano observe, however, that there is no opinion that no great danger is imminent.

## Debts of United States

Country Owes Men to Great Britain and Co-operation to Europe

Our Dumb Animals, a Boston publication, suggests that the readers will find Bishop Charles H. Brent, of Buffalo, expresses their feelings in the following words:

"We are just now talking in terms of payment of money on the part of European countries which were given credit, and as we have heard of these impoverished people, let us remember that we perhaps owe 2,000, 600 men to Great Britain, and as we go along to pay that debt I do not hesitate, in spite of Congressmen Hamilton, to say that I have a right to estimate the attitude of our country in this matter of debts. Let us remember that whatever we do in connection with them, there is another debt America owes Europe which has not been paid. She owes Europe a debt of co-operation. For each of co-operation as she has given her men too glacially given, with a sort of fear, I am afraid, that we might be running risks."

## Clubs For Working Girls

New One Just Opened in Heart of London

The necessity, or liking, for clubs for women has extended to the city worker. Most of the new clubs, or insurance companies have their own catering arrangements and are able to feed their staff employees at a small cost. The first employing only one or two girls is not so well placed, and it is for these employees that a new club has been opened in the heart of the city.

The girl members will be able to eat there at a reasonable cost as well as use the club as a social centre to prepare for sports or evening engagements without first having to rush home to the suburbs.

## His Nose Knows

Master (to maid)—Your sweetheart is waiting for you outside the door.

Maid—How do you know he is my sweetheart?

Master—Life is knocking one of my ears!

## W. N. U. 1933

## First Japanese Woman Bandit

Young Highway Robber Longed For Adventure and Excitement

The first woman bandit in the annals of Japanese crime has been arrested by the police at Tokyo after committing scores of bold highway robberies at the point of a stiletto. In every case her victims were men.

The young woman, who is twenty-five years old, was formerly a fencing teacher in a high school in Kyoto, but found the life too tame and longed for adventure, she set out for Nagoya in spirit of excitement. She became a waitress in a Chinese restaurant, as a young woman without visible means of support would have carried the suspicions of the police.

She admits committing armed highway robbery nearly every night for three months, when her career of banditry was cut short by the police. Her usual procedure was to accost male pedestrians in unfrequented highways at a late hour and when her intended victim passed, she threatened them with a dagger, the orthodox weapon of the Japanese robber or burglar, and demanded money.

Although crimes have been committed before in Japan with women as accomplices, this is the first instance on record of a woman bandit working alone.

## Supplies For Far North

Relief Ship Sails For Hudson's Bay Ports in Arctic

With foodstuffs and supplies for Hudson's Bay posts in the Arctic region, the Inter-Continental of the Hudson's Bay Company, has sailed carrying stores to replace those of the Bay Eskimo, the supply steamer which sank in Vasey Bay on July 27. Capt. J. H. Parkin, formerly first officer of the Polaris, is in charge of the boat, which will be assisted by Capt. J. Lloyd, who commanded the Bay Eskimo as bay pilot.

The boat, with a register of 1,019 tons, is carrying about 1,200 tons of cargo, including livestock, feed, oil, paint and a variety of other articles needed in the Arctic region. A crew of 20 has been signed on, with men as spars.

J. Conley and L. Graham command company employees who were on the Bay Eskimo, and made a hazardous trip through the northern wastes back to civilization, are going north in the hour of the year, the boat will not return until early in the winter, as the journey requires several months.

## Praise From Indian Prince

Maharajah Says Salvation Army Has Done Much For His Country

A striking tribute to the Salvation Army was paid by the Maharajah of Patiala, who is visiting London, when he inspected the new hospital provided by the army in the power quarter of London.

"Your father, William Boodh, was one of the first men to realize the possibility of organizing along the lines of military discipline relief for the suffering and the spirit of humanity," the Maharajah said. "Gentlemen, I am a soldier myself. I am proud to give my services to my country, I am glad to testify this and pay my tribute of admiration for its redness, noble work."

## Will Give Double Service

Pacific Cable Is To Be Duplicated Next Year

The work of duplicating the Pacific cable from the Fiji Islands to Bantel, Vancouver Island, will be finished next year, the Director of the member of the cable board and former agent-general in London for New South Wales, said today from Victoria from Australia on the liner Niagara. As the cable section from the Fiji Islands to Australia already has been duplicated, the whole section next year will be able to give double service, he said. Sir Timothy is on his way to England.

## Facts About Canada

The second federal census was taken in the spring of 1931. It showed a population for the Dominion of 4,224,310. On May 2, the first sod was turned in the construction of the Canadian Pacific Railway. The Royal Society of Canada was founded in that year, and the first meeting of the society was held on May 25, 1882.

The seat of the government of the Northwest Territories received the name of Regina on August 25, 1882.

Japanese girls are looking for their. They have formed a society in Tokyo to which only women are admitted who have discarded the elaborate traditional hair arrangement of Japan for the modern bob.

## CLIPSE FASHIONS

Layette for the New Baby

Clothes for the new baby may be made with a great saving of time and trouble, when they follow the pattern for this layette. Every garment required is made, including the baby's outfit. The first long dress of soft material is made with tucks, and a yoke with touches of embroidery. A second dress of the same material has neck, running into a burrow-cut of soft wool with shawl top should be worn. A diaper band shirt with kimono sleeves buttons up the front, together with a light blue having extending buttoning from back into front, complete this layette, which is cut in one size only. Dress requires 17 yards of 36-inch material; nightgown, 18 yards; straight diaper band, 3 yards; shirt, 2 yards; diaper band, 3 yards. Price 20 cents.

Many styles having a smart appeal may be found in our Fashion Book. Our designers originate their patterns in the hour of the year, and their creations are those of tested popularity, long known and loved by the average woman. Price of the book is each copy. Each copy contains 100 patterns good for five years in the purchase of any pattern.

England to India by Air in Little More

All-Steel Aeroplanes

England to India by Air in Little More

All-steel aeroplanes now under construction in London will make the trip from England to India, roughly 8,000 miles as the crow flies, in three days and some odd hours, according to a recent announcement of the British air ministry, under whose supervision the machines are being built.

The specifications provide that the planes be equipped with three motors, developing 2,000 horsepower and it is hoped they will be able to accomplish 100 miles an hour possibly even a greater speed. A crew of four will operate each machine, which will carry 20 to 25 passengers. It is expected that these planes will be in travel day and night, there being sleeping accommodations and hot meals by means of an electric cooker.

France Issues New Medal

Many French mother and father of the dead have been given a new new commemorative medal dedicated by the Federation of Fathers and Mothers of those who died for France. This medal is of silver and bronze, bearing the head of a soldier with a black band of mourning and two strips of red on his blood-stained head a crown of thorns and laurel to symbolize martyrdom and glory.

Canada's Opportunity

In addition to being the "breadbasket" of the empire, Canada is an important factor in supplying the British west coast. A marked increase in the volume of trade in fresh beef, ham and bacon is reported. Providing that only women are admitted who have discarded the elaborate traditional hair arrangement of Japan for the modern bob.

## Canada's Rising Prosperity

Country Is On Firm Foundation Says New York Paper

Obligations of the Canadian government amounting to \$20,000,000, but large in the United States, fall due in September, and J. A. Robb, the acting minister of finance of the Dominion, has announced that \$20,000,000 of them will be paid off. The balance will be refunded in New York or London, wherever the best terms for the Dominion will have about \$45,000,000 with which to meet maturing obligations. In this is the evidence of Canada's sound financial condition and property, and the rapidity of the country's recovery from the effects of its notable efforts in the war.

Just as Canadians have intelligently encouraged agriculture, mining and industries, so they have built up their business, making money, entering into the country and departure from it simple and comfortable. Red tape has not been allowed to hinder business, whether they stayed a day, a week or a month.

Canada is on a firm foundation, it deserves to be. It has won through from after-war confusion by pick, toll and brains—New York Sun.

## Advantages Of Passports

Saves Delay to the Visitor in Different Countries

Negotiations between Canada and Britain for the abolition of passport requirements for Canadians visiting England have resulted in the conclusion that things are better left as they are.

The Dominion official stated that while the Canadians of course are in a country must find it an inconvenience to procure passports, he realizes the advantages of possessing one when visiting a British country. So long as the general passport system in a country must be established, and the mere statement that a person belongs to one of the dominions is not sufficient for officials at the port of destination of passports puts an end to all possibility and saves delay to the visitor.

## Determine Size Of Waves

Matter of Speculation Decided by Specially Constructed Camera

Reports about ocean waves fifteen yards and more in height, says a German paper, are in the class of fairy tales. The length and height of waves, always a source of much speculation, have now been accurately determined by means of a specially constructed camera, according to the paper, and ordinary waves are from two to four yards high. The waves rise to nine yards in a so-called high sea, and even attain from ten to twelve yards in a violent gale. The length of the largest waves—that is, from crest to crest—is described as about 300 yards, while the time in which one wave passes a fixed point is about twenty seconds. The speed of a large wave, therefore, is about twenty yards a second, or that of an express train.

## Canadian Universities

Nearly One in Eighteen of the Total Population Attend College

The total number of students in Canadian universities and colleges in 1924 was 25,628, or nearly one in eighteen of the total population, according to a bulletin issued by the Dominion bureau of statistics. Under the category of colleges, the total number known to have operated in 1924 is 83. Of this total six are agricultural, two technical, two law, one dental, one pharmacy, one for veterinary science, 23 theological, 39 affiliated, one school of law, one school of medicine, one college of art and one military college.

How To Reduce Bankrupt

Nations that refuse to make both ends meet sooner or later they will be bankrupt because they always overpay their income. These are platiitudes, but they are pitiless platiitudes. They cannot be denied or evaded—London Sunday Express.

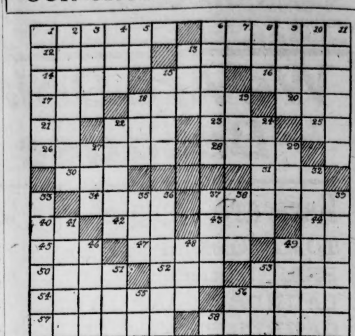

Dolls To Santa Land

A large shipment of dolls and Christmas gifts recently were sent to boys and girls of the most northern communities in Norway and Sweden. The last 1,000 miles of the journey was by dog sled.

Birds Fly Low

Birds rarely fly more than 1,000 feet from the ground, a German scientist has announced. He also reports that but few birds fly faster than 20 miles an hour.

## OUR CROSSWORD PUZZLE

- |                                 |                                    |   |
|---------------------------------|------------------------------------|---|
| Horizontal                      | 44—Therefore, but very violently.  | 13—Southern constellation.                              |
| 1—Throw violently.              | 45—Birds.                          | 23—French coin.   |
| 2—Cultured.                     | 46—Likely.                         | 25—Horse.   |
| 3—One who feasts magnificently. | 47—Likely.                         | 26—Widow's mourning garments.                           |
| 4—Transported.                  | 48—Heavily fall, as of rain.       | 27—Not elected.   |
| 5—Children.                     | 49—Malice.                         | 28—Melancholy.  |
| 6—360 square meters.            | 50—A fortnight by legal authority. | 29—Interval of rest.                                    |
| 7—By way of.                    | 51—Sewer.                          | 30—Blossoming of a tree.                                |
| 8—Bread mite (abbr.).           | 52—Observes.                       | 31—Hollow metallic vessel giving forth a ringing sound. |
| 9—Nasty quarrel.                | 53—Not equipped.                   | 32—Nooks or corners.                                    |
| 10—Abundance.                   | 54—3-Mile.                         | 33—Decayed.   |
| 11—Brings legal action against. | 55—Form of proof "ad."             | 34—Reverly.   |
| 12—Aristocrat.                  | 56—Memorandum book.                | 35—Low murmuring of a cat.                              |
| 13—Aristocrat.                  | 57—Proponent of a price.           | 36—Illuminated.   |
| 14—Moved.                       | 58—Weird.                          | 37—Surrounded by.                                       |
| 15—Common carrier.              | 59—Equal value.                    | 38—Unclose (poet).                                      |
| 16—Equal value.                 | 60—Blasted.                        | 39—Plural ending of many nouns.                         |
| 17—Dignity (abbr.).             | 61—Outlook.                        | 40—Point of compass.                                    |

## One Of London's Mysteries

Riddle of Abandoned West End Mansion Cannot Be Solved

Twelve years ago a wealthy occupant of one of London's finest mansions, a German widow, suddenly left the house with a dinner was being served, and, hastily parking her car, left for the continent. The large staff of the mansion was dismissed with orders not to touch anything.

It has been discovered that the widow was dismissed with orders not to touch anything. The large staff of the mansion was dismissed with orders not to touch anything. The widow was dismissed with orders not to touch anything.

What is more of a mystery is the fact that taxes, now amounting to \$12,000, have been promptly paid each year.

It was said that the owner is Mrs. Janette Oliver Vetch, widow of a wealthy German, and the rumored reason for her strange departure was the sudden illness of her son, but no satisfactory explanation has ever been made. A heavily veiled woman, believed to have been Mrs. Vetch, was seen a short time ago who saw Mrs. Vetch, paid a three-minute visit to the house six years ago. Mrs. Vetch now lives at Monte Carlo, but the riddle of the abandoned West End mansion remains unsolved.

## The Chinese Point of View

Charge More For Articles Supplied in Large Quantities

The Chinese find it difficult to understand the British attitude. An has been evidenced in recent years and perhaps, illustrated by the experience of a gentleman visiting Canton a short time ago who saw some Mr. Jozeg sets being sold at \$500 each. He inquired what he would be charged for such sets of 250 sets, and was told \$600 each. "You see," was the explanation, "it is so much more trouble to make 250 sets than it is to make one, so we have to charge more."

## Presents Pleading To Prison

Pope Pius, whose interest in charitable work for prisoners and former prisoners is well known, recently presented to the Regina Civil Prison a valuable collection of the venerable Giuseppe Cafasso. The latter for many years devoted himself almost entirely to charitable and religious work among the prisoners of Turin.

Fishermen who recently landed up mullet fish in their nets near the Thames Estuary, are claiming compensation from the admiralty for damage done to their gear.

An old bachelor resembles a pair of scissors with only one blade.

## Britain's Business Ambassador

London Papers Draw Attention to Secretary of Price

Correspondents of the big London dailies and Reuters News Agency with Britain and the great operator in South America, naturally concern themselves particularly with recording the personal activities and experience but they do not fail to take the same line to draw attention to what may be described as the Prince's secondary role as a business ambassador. The Prince's secondary role as a business ambassador is the Prince's secondary role as a business ambassador.

One of the correspondents strongly hints that Britain has allowed herself to be forestalled since the war by the business enterprise of the United States, Germany and other countries because British prices are too high. Editorial extracts are published from Argentine newspapers, drawing attention to various phases of the royal visit and pointing out that it has turned an Argentine the searchlight of British curiosity.

## Business Conditions Improve

Confidence of U. S. Capital Is Shown in the Dominion

Confidence of United States capital in the Dominion, optimistic preparations for the new Canadian financial prospects of a good crop, large United States purchases in Canada, and heavy expenditures of American tourists in the Dominion, were some of the reasons offered by New York and other newspapers for the constant above par stand of the Canadian dollar on the New York exchange. The Canadian dollar is now at a premium on the New York exchange.

Chief of Police Was Busy

In order to catch a criminal, his photo from the police morgue, full-size, three-quarter and profile, was circulated. After a while a telegram was received from the chief of police in a small town. It read: "Have arrested two of the criminals, and on the trail of the third—Justice-Zieting, Germany."

It is a wise contrivance of nature that prevents a man's slumbers from being disturbed by his own snoring.

Commercial rates on application.

THURSDAY, SEPT. 1, 1910

WHEAT AND CORN CRACKERS.

The order of the railway commission, for the reduction of rates on the Pacific coast to the same level as those on the St. Lawrence, will add largely to the revenue of Alberta farmers from their wheat. Four cents per bushel is not a very large amount, where one bushel of wheat is concerned, but it is a distinctly large amount when the aggregate of bushels grown in the province is taken into consideration. The recognition of Vancouver as the outlet for Alberta grain removes our interest to a great extent from the eastern route, to which Saskatchewan and Manitoba must look.

An effort to secure an alliance between liberals and progressives for the forthcoming Dominion elections was featured as a news item by the daily press this week. Hon. T. H. C. Connor, Hon. C. Denison, J. M. Johnston, M. P., and Hon. N. Kennedy King being quoted as the prime movers. While such an alliance might be desired by these individuals the method of securing it was not of a character to denote their sincerity.

The big anthracite miners' strike in the United States began on Tuesday morning. The number of people directly affected by the stoppage of wages is said to be fully 500,000.

The progress of threshing would indicate yields almost up to expectations during harvest. The quality of the grain, too, is perfectly satisfactory in most instances.

Only shops which specialize on bright display windows are to be allowed hereafter as occupants of the choice corner sites in Regent Street, one of London's principal shopping thoroughfares. The office of public works headed down a ruling recently, banning banks in these quarters on the ground that banks are dull buildings and have no place in prominent corners passed by thousands of pedestrians hourly seeking recreation, and new ideas in the course of their tours of window shopping. This is all a part of a scheme for a brighter London.

The Mexican government has arranged the greatest colonization project ever attempted with the arrival of 10,000 German farmers in the states of Sonora and Sinaloa, during the next few months. Some of the richest farming country lies in these states.

After months of experiment with radio sending and receiving apparatus on airplanes, the noise of the motor has been entirely eliminated, as well as the noise from ignition. The new night air mail planes flying between New York and Chicago are to be fitted out with improved receiving and sending equipment.

# Hay Fever Caused By Pollen Germs Floating in Air

Types Vary According to Varieties of Grass at Different Seasons.

By DR. EDGAR A. CHAMBERLING  
Surgical General United States Public Health Service.

Hay fever is a seasonal affliction of the mucous membranes of the upper respiratory tract. It is a condition of hypersensitiveness to pollen grains, and is produced primarily by the breathing of dust and pollen.

The development of hay fever about young time led to the belief that hay was the cause of this condition and it was not until after the isolation of pollen in hay fever was established. Researchers are now largely agreed that while there are many plants whose pollen may cause hay fever when applied to the nostrils, only those pollens which float in the air can reach the nostrils in the course of all normal breathing and are responsible for the condition.

It appears also that hay fever in different individuals varies not only in degree but also in the character of the sensitivity. Although wind borne pollen is so widely distributed that the human continuance of every person can be assumed to be, yet only those who are sensitized develop hay fever.

Also, there are people who are sensitive to the pollen of the rag weed and are not sensitive to the pollen of grass. Other people react to the pollen of timothy and are not sensitive to the pollen of grass and rag weed. There are still others who react in various degrees to all of these pollens. Since the fact is now generally well established that hay fever is caused by the breathing in of wind borne pollen only, certain flowers and plants which are considered on the hay fever books, may not be assumed to produce hay fever.

These plants and flowers which are followed by certain insects, such as the goldenrod, the hellebore, the lily of the valley, the daisy, the dandelion, and the rose, are no longer considered to be important contributors in hay fever. The disturbing groups, which may be found all over the United States, are timothy, grass, goosefoot, sunflower, dock, rag weed, and wormwood.

The type of hay fever which begins in April and extends through May, June and July, is probably caused principally by the pollen of the grasses. In the east, red top is sometimes the offender but more particularly timothy and June grass. In the middle west, June grass and red top are the principal hay fever producers during these months.

Summer hay fever, which begins in June and extends through July and August, to September, is caused largely by the goosefoot, docks and sunflowers. These groups are almost causes of hay fever in many states but the important principal causes of hay fever in some.

The type of hay fever which begins in August and continues until the first frost is caused largely by the pollen from the rag weed, which is found in nearly all sections of the country east of Kansas, although in the southwest, the sunflower group again is the principal cause of fall hay fever.

Investigation would tend to show that the most severe cases of spring hay fever occurring in the eastern part of the country are caused largely by the pollen of timothy. It has been estimated that between 90 and 95 per cent of the cases of hay fever that occur in the east are caused in the spring by the pollen of timothy and in the fall by the pollen of rag weed.

When we realize the very considerable number of people affected with hay fever and the great suffering which it entails, we can appreciate the importance of concerted efforts to prevent this disease. The first important step in the work of prevention is the education of the public in the responsibility of the pollen of certain weeds for causing hay fever. When the public realizes that the common

## Local and General

J. Giolo was a visitor to Lethbridge on Wednesday.

The open season for ducks and geese begins on September 15th.

Found—License plate No. 121-056. Owner apply at Chronicle office.

Ray Warren's wheat yielded 29 1/2 bushels per acre over his whole crop.

Jas. Brown's wheat yielded 23 bushels per acre and graded No. 1.

Mrs. Theriault returned from a trip to Calgary on Wednesday.

Mrs. R. Gardner and family returned recently from Frank, where they had spent the holidays.

John Maritas, who has been in Banff for the past month, returned to Champion this week.

Miss Kathleen Watkins left for Calgary this week where she will take up Grade XII work.

The rush for school books and supplies at the opening of school was exceptionally noticeable this year.

Threshing is progressing so rapidly that some outfits expect to be finished this week or early next week.

School opened on Tuesday morning with a good attendance. Miss Tory and Miss Smith are the new members of the staff.

Sinclair Wright, Mrs. C. A. Wright and Mrs. A. Dila arrived in town on Sunday, from Rosedun, Cal., having made the trip by car in less than a week.

Mrs. J. F. Eason, of Gleichen, and her daughters Lillian and Lynette, who have been visiting with Mrs. Lee at the parsonage, returned to their home on Saturday last.

Rev. Joseph Lee will attend the first meeting of the High River Presbytery of The United Church of Canada, to be held at Claresholm, on Thursday, September 10th.

Morgan Smith's team, frightened by a loose piece of paper blowing towards them, swooped with a new tank loaded with wheat throwing the tank and load from the wagon and seriously damaging the tank.

Now if Southern Alberta's search for oil is at last rewarded by finding a field to parallel the Sanburst-Kevin field in Northern Montana, the cup of prosperity will surely be flowing over. The South has had three average or better crops, irrigation development is just beginning to pay returns, the coal mining industry has settled down into its stride, and the discovery of an oil field is all that is needed now to round out the development and start Lethbridge off on a steady climb to the \$5,000 mark.—Lethbridge Herald.

## NEWS NOTES

R. S. Dean and W. E. Hudson metallurgical engineers in Chicago, have discovered a process to harden and temper lead. The new discovery, something that science has been trying to do since the ancient days of Egypt, involves the use of a small percentage of alloy and treatment of the metal by a heating process.

The world's largest locomotive for passenger-car service has just been completed in a prominent American railroad shop. It has a total wheel base, including tender, of 80 feet and weight of 650,000 pounds, with driving wheels more than six feet in diameter.

Great Britain's air transportation company, the Imperial Airways, which came into existence May, 1924, recently completed 1,000,000 miles of flying. During the past 12 months, air planes, carrying \$10,000,000 worth of mail, 15,000 passengers and 1,000 tons of freight have flown across the Channel at 100 miles an hour.

A Russian chorus girl, named Dagmar Dombrowsky, has been something of a sensation in New York, largely because of an active press agent. Stories of narrow escapes from Bolshevik raids in Russia which reduced her Moscow relatives to poverty, and how she, a member of a Russian nobility, was forced to work for a living, crowded the theatre where she appeared. Then the real story leaked out. She has the good American name of Daisy Davis and was born in Moscow, all right, but Moscow, Ohio, not Russia. She has never seen Russia.

Lizzie, North Carolina's negro pitcher, fanned seven batsmen and hit one in a recent game. For three innings the opposing team did not get a man on first and when one did land safely on a scratch hit, Lizzie whiffed the next two up and caught the runner rapping. Lizzie is a 16-year-old with kinky hair and a face as black as a cloudy night, but according to her 165-pound catcher, "That gal can hit an out-off a catcher's pillar's back at a hundred feet and never raise a hair."

A high-spirited girl recently played a joke on her mother, and this is how it happened: She actually found a love letter that her father had written to her mother, substituting her own name and that of her lover. The mother read with anger and stamped her feet in disgust, forbidding her daughter to have anything to do with a man who would write such nonsensical stuff to a girl. The girl then gave the letter to her mother to read, and the house became so suddenly quiet that you could hear a cat winking in the back yard.

## Western Rates Down Sept. 15

Ottawa, Sept. 2.—Under an order issued today by the Railway Commission, the Canadian Pacific and Canadian National railways are instructed to file tariffs, effective not later than the fifteenth of September, reducing rates on grain and flour to Pacific ports for export to the same rates, proportioned to distances, as grain and flour would carry if moving eastward for export. This will result in the saving of over four cents per bushel to Alberta farmers.

## Notice to Ratepayers

In accordance with the terms of The Municipal Hospitals Act, petitions were received by the Minister of Health at Edmonton, asking for the creation of a Municipal Hospital District including the territory described below.

Complying with these petitions, the Minister of Health established the Municipal Hospital District on June 10th, 1925. Following the establishment of the District the Municipal Councils in the said District, in accordance with the terms of the Act, duly appointed a Hospital Board to prepare a scheme for the building and operating of a Hospital in the said district.

The Hospital Board met and prepared the scheme outlined below. This scheme is now, under the direction of the Minister of Health, to be advertised throughout the said District for a period of fourteen days, following which, providing all other conditions have been complied with, the scheme will finally be approved and a date fixed not exceeding thirty days from the date of such approval, upon which the ratepayers of the said District will be called upon to vote for the adoption or rejection of the said scheme. The territory included in the Hospital District is as follows:

**Municipal District No. 127**  
That portion of Township 15 and 16, Range 21, West of the 4th, lying west of Lake McGregor.

**Municipal District No. 128**  
Township 15, Range 22, 23 and 24, West of the 4th, and Township 16, Range 22 and 23, West of the 4th, excepting Sections 5, 6, and 7.

**Municipal District No. 129**  
Township 15, Range 25, West of the 4th, excepting Sections 5, 6, and 7.

**Municipal District No. 157**  
Township 17, Range 21, West of the 4th, lying west of Lake McGregor.

**Municipal District No. 158**  
Township 16, Range 21, 25, and 26, excepting therefrom sections 4, 5, 6, 7, 8, 17, 18, 19, 20, 29, and 30. Township 17, Range 21, 25, and 26. Township 18, Range 21 and 25, West of the 4th Meridian.

**Municipal District No. 159**  
Township 16, Range 21, West of the 4th.

**Village of Champion**  
**The Town of Vulcan**

The basis of the Scheme is as follows:  
1. To purchase a suitable site subject to the approval of the Minister of Health, at or near the Town of Vulcan.

2. To erect a Municipal Hospital, a duplicate of the Viking Hospital as near as may be, and to equip the same with an operating room and all necessary appliances.

3. To supplement the revenue derived from taxation by a schedule of fees as under:

(a) To persons liable for hospital taxation under any Municipal Act, dependent members of his or her family \$1.00 per hospital day.

(b) Resident persons not liable for hospital taxation under any Municipal Act, upon the payment of the sum of

not less than \$10.00 on or before a date not exceeding one (1) month from the date of the opening of the Hospital and on or before the first (1st) day of February in each succeeding year, \$1.00 per Hospital Day to include dependent members of his or her family.

(c) Operating room free to persons liable for hospital taxes under any Municipal Act and to persons complying with the provisions of Section (b).

(d) Hospital fees for all others shall not be more than \$5.00 per hospital day with an additional charge for drugs and dressings, and the use of the operating room as under:

Minor operations, \$5.00.

Major operations, \$10.00.  
4. To create Debenture Indebtedness of not more than \$40,000.00 (twenty (20) year debentures for the purpose of erecting and equipping with X-Ray the Hospital building and the purchase of a suitable site.

5. To repay said debentures in equal payments annually of principal with accrued interest, or equal payments of principal and interest combined or as near as may be.

6. As provided by Section (17) of the Municipal Hospital Act, no taxed persons in any town, village or hamlet within the Hospital District shall receive in any year Hospital service at the minimum rate of \$1.00 per day unless prior to one (1) month from the opening of the Hospital or upon a date to be determined by the Board in each subsequent year, he or she pay a sum of money to the Board which together with the sum payable by such persons as Hospital taxation for that year is equivalent to the sum of \$10.00.

## CATTLE EXPORT INDUSTRY WILL SOON BE DOUBLED

Edmonton, Alta.—If present plans are followed out, the livestock producers of Canada, the best feeding and exporting organization which has its headquarters at Edmonton, will, during the coming winter, double the sale of its operations locally, which means that at least 20,000 head of cattle will be exported from the Edmonton district in the course of the next season. This is the statement of H. P. Kennedy, of Toronto, president of the company, who, with the vice-president, T. J. Irwin, of Glasgow, has been here this week in conference with local officials of the firm.

Mr. Kennedy has just returned from a trip to Great Britain, where he found that not only are British Canadian steers in demand, but there is an unlimited market for steer cattle to be put in marketable condition on Scottish and Irish farms. He visited farms where Alberta cattle had been finished, and farmer feeders reported that Canadian cattle had shown superior feeding qualities and had given them a return of as much as \$10 a head over those from Ireland, and their only other source of supply.

In addition to the activities of the company at Edmonton, it is announced that feeding yards will possibly be opened up on a smaller scale during the coming winter at other points in the west. Calgary, Saskatoon and Winnipeg are mentioned as other possible centres of the firm's operations. It is planned that the main headquarters of the company will be retained at Edmonton, as Mr. Kennedy is convinced that this is the logical centre for the development of the industry of this magnitude.

## Will Not Exempt New Zealand

Banks and Insurance Companies to be Boycotted by Bombay

Bombay, India.—The municipal corporation of Bombay has refused to accept a resolution passed by the corporation in March, 1922, boycotting the Indian banks and insurance companies as a protest against the treatment accorded Indians in the overseas dominions.

A letter recently received by the municipality from the New Zealand Government urged New Zealand should be granted exemption from the boycott on the ground that the Indians in that Dominion do not labor under any disabilities.

## Indians Return To North

Were Testifying in "Witchcraft Murder" Hearing at Prince Rupert

Prince Rupert, B.C.—Attired in their newly purchased cloths, the twelve Indian natives, who were brought to civilization from their nomadic life in the north, returned to their homes to face trial or to testify at the "witchcraft murder" hearing concluded here, have sailed for the north.

"Big" Aleck, found guilty of manslaughter and sentenced to five years' imprisonment, is the only member of the party not bound for home.

## Thinks Crisis Is Passed

Foster Finds Most Hopeful Feeling All Through Canada

Vancouver, B.C.—"I feel a most hopeful feeling all through Canada," stated Sir George Foster, who arrived here, in commenting on general trade conditions.

"The people, particularly in the west, feel that the crisis is passed," said Sir George, "and I believe the feeling of optimism is well founded."

Sir George has just concluded a tour of the eastern provinces in the interests of the League of Nations Society.

## Ask Life Sentence

New York.—Because he felt he was as old as a hundred and one, and his relatives, William Johnston, 73, arrested for vagrancy, asked Magistrate Ellinger to give him a life sentence. Johnston got three months in the House for the aged.

## Delegates Clash Over Opinion Question

Woman Envoy From U. S. Asked To Prove Her Charge

Philadelphia.—Opinion angling into the Philadelphia brought the United States delegation, Mr. Hamilton Wright into conflict with the British delegates in the League of Nations opinion commission. She charged that a large amount of opinion was sent from British North Borneo and wanted to know why the British could not stop the shipments as India had done.

Both Sir Malcolm de Levis, Irishman, and Sir J. Campbell, Irish, questioned Mrs. Wright's agency and she promised to produce figures.

The Indian Government informed the commission that India had stopped selling opium to Persia and to the Portuguese colony of Macao near Hong Kong, because consignments shipped to these places have been found illegal.

The Indian Government stated it would follow the same policy toward other countries where there was evidence of the improper use of opium.

## Possible Conference Over Irish Boundary

President of Free State May Meet

London.—The possibility of another conference between President Cosgrave of the Irish Free State and Sir George Foster, British ambassador, over the Irish boundary problem, is forecast by The Daily Express.

The newspaper believes that the British Government will be held to a speech delivered by C. C. Craig, a member of parliament and brother of the late Lord Craigavon, who is believed to be in the hands of the British Government in the Irish leaders to come together and try to effect an eleventh hour settlement of the problem.

The correspondent says Mr. Cosgrave declined to comment on the suggestion, but that he is of the belief he will agree to it.

## More Trade Treaties

May Enter Into Agreement With South American Republics

Ottawa.—The British Government may open negotiations with a view to entering into trade treaties with the Central American and South American republics, as well as Cuba, were made here by H. J. Logan, M.P., who visited the West Indies last fall, as the Dominion's representative, reported in the signing of a new trade agreement between Canada and the islands, about two months ago.

Mr. Logan estimates that under this new agreement, the trade with Canada will increase \$25,000,000, at least, annually.

## Impressed By Dominion

Opinion of People Particularly Noted by British Teachers

Edmonton.—Sixty-two British teachers, school teachers travelling across Canada by special C.P.R. train, under the auspices of the Overseas Education League, spent one day here, and were impressed by what they have seen of Canada's educational system, and have been particularly impressed, they declared, by the treatment of the Dominion and the confidence, optimism and hospitality of the people.

## Daily Progress a Surprise

Moore Jay.—The American agricultural visitors visiting here were much impressed with the fact that while Saskatchewan in 1911 made one million pounds of butter, in 1922 the production would be 16½ million pounds, and the export would be 12,000 cars.

## Medicine Not by Election

Edmonton.—The Medicine Hat election will likely be held near the end of September. Premier Greenfield expected to be defeated as the announcement of the date during the next few days.

## St. Paul's Fund Now \$250,000

London.—The fund towards meeting the cost of the restoration of St. Paul's Cathedral, including subscriptions from various parts of the empire, now totals \$250,000.

## 2,500 Unemployed In Toronto

Toronto.—Twenty-five hundred wage earners are listed as unemployed at the Toronto office of the employment service of Canada. The majority of these men are unskilled.

## Grain Congestion

Minneapolis.—Shipments of grain to this city and Duluth are so heavy that there is a serious congestion of cars at sampling points.

Japan has the highest birth rate of any country in which vital statistics are kept.

## Is Appointed Director

Britain Giving Farm Training To Unemployed

Men Sent to Canada or Australia After Completion of Course

London.—The ministry of labor, in conjunction with the overseas settlement committee, is establishing centers where a six months' residential course will be given to a limited number of unemployed men to enable them to engage in farm work in Canada or Australia. The first one to be opened will be at Clayton, near Ipswich.

Applications from eligible young men from all parts of the country are invited. Those selected will be given free railway passage to Clayton, but they must undertake to remain in training there for the full six months' course and proceed direct to either of the two dominions mentioned at the end of their term.

The applicants must be single men, between the ages of 19 and 25, and suitable ex-service men, up to the age of 29, will be accepted. Only men of the late George Morris Howard, chairman Canadian Pacific steamships. Later Sir George was appointed a Director of Canadian Pacific steamships in succession to the late Sir Thomas Fisher.

Sir George McLaren Brown, European General Manager of the Canadian Pacific Railway, who recently arrived in Canada to attend the funeral of the late George Morris Howard, chairman Canadian Pacific steamships. Later Sir George was appointed a Director of Canadian Pacific steamships in succession to the late Sir Thomas Fisher.

Sir George McLaren Brown, who was born in Scotland, Oct. 1, 1867, was appointed agent of the company at Vancouver in 1887 from which post he was promoted by degrees to that of General European Manager. Sir George received his title of Knight Commander of the British Empire in recognition of his distinguished services as Assistant Director General of Movements and Transport for the British Government during the last three years of the war, in which capacity he served with rank of Colonel, Imperial Forces.

## GERMANY INVITED TO JOIN FRANCE IN SECURITY PACT

London.—France and her allies, have invited Germany to enter into negotiations for a definite treaty intended to guarantee an endless era of peace in Western Europe.

The invitation was extended in a note handed to the German ambassador at Berlin. It is a reply to Germany's note of July 29, on the subject of a pact.

In their reply, the French, in common with their allies, confine themselves to observations on only three points.

The points on which the French would consider all future efforts to guarantee security are that the treaty of Versailles must be modified, that Germany should enter the league, not with the reservations as Germany suggested, and that provision should be made for compulsory arbitration of international disputes.

An early conference between the German foreign minister and the allied foreign ministers is already in prospect. It was stated in London tonight that the French, British and Belgian ambassadors had joined in a statement that the allies think advisable that their juridical experts should meet German experts as soon as possible to clear up technical questions, and pave the way for a meeting of the foreign ministers. It is expected that the experts will get down to "round table business" in London this week.

## Oppose One Big Union

A. J. Cook As Sponsor Severely Criticized In Britain

London.—A division of opinion has arisen among British trade unionists over the proposal to be submitted in the forthcoming Trades Union Congress, providing for the formation of a general industrial alliance of all the unions, representing 5,000,000 workers. A. J. Cook, general secretary of the Miners' Federation, is the main sponsor of the proposal, which is represented in the press as an attempt to capture the unions by the "Reds."

The scheme is already meeting with opposition.

## To Be Deported

Vancouver.—Nineteen defence members of the crew of the steamship city of Victoria, who went on a sympathetic strike following it, is declared, orders from Shanghai, were sent to serve six weeks each in Okakura Prison, after which they will be deported.

## Explosives As Rain Maker

Greenville, S.C.—High explosives are to be used in rain making experiments here. The idea originated with a war veteran, who believes the artillery bombardment caused the heavy rainfall in France during the war.

## British Unemployment Increases

London.—There has been an increase of 29,000 in the number of unemployed persons in Great Britain last week. The increase in the past three weeks more than 100,000. The number now totals 1,296,000.

## French Troops Driven Back

London.—The Jerusalem correspondent of Reuters reports that the French troops have been forced to evacuate several towns and withdraw their lines before the revolting tribesmen in Syria. The French are said to have evacuated Khirbat Ghazi with losses and later the town was occupied by the enemy.

## Heavy Rainfall Floods Toledo

Toledo.—Toledo was a result of almost 24 hours continuous rainfall. Electric lights, telephones and street car services were interrupted. Heavy rain in the section of the city is inundated, and thousands of homes have been flooded. Few casualties have been reported, but heavy damage is expected.

## Europe Paying Up

Five Countries Are Cleaning Up Debts To Canada

Toronto.—Venturing the prophecy that Canada was on the eve of the best year for business ever experienced, H. P. C. Larkin, high commissioner for Canada at London, who has just returned home for a brief visit, said here that her debt was gradually being reduced. The amount owed to Canada by five European countries was still large, but not nearly as large as three years ago, when \$200,000,000 was owing. Over \$160,000,000 of that had been collected over twelve months during the past year, Mr. Larkin stated.

"What are the prospects of collecting the balance of \$140,000,000?" he was asked. "Well, I think the balance is \$125,000,000, and I think we have good hopes of getting that in, too," he replied. "But, at any rate, we are getting along on a 10—something which we did not get for three years after the war."

The high commissioner was asked concerning the amount to be received by Canada under the Dawes repayment plan.

"We are gradually getting our allotted share," he replied, "and collected in repayment this year \$1,550,000. I think that plan will be carried out each year, giving us a larger amount for many years to come." Great Britain received her payments largely by bill, Mr. Larkin explained, that it equivalent to gold, as the goods are immediately sold and might be sold without ever being taken to Britain for sale.

## Report Canadian Banks In Good Condition

Have Plenty of Money on Hand For All Purposes

Toronto.—The Globe in a news item based on the statement of Sir Henry Thomson, president of the Canadian National Bank, that there is plenty of money available this year for investment in the grain crop, was corroborated by the general managers of two Canadian chartered banks, both of which said the banks were in splendid shape for the financing of the grain harvest.

The Globe adds: "The statement stated that the same condition prevailed as regards all local business enterprises throughout the Dominion, the banks having plenty of funds on hand. While interest rates have not shown much change in recent months, and are still low, they were a year ago, the fact that the money is available, but not for the crop movement, but for all sound business undertakings, is an encouraging one."

## NEW AGREEMENT FOR SETTLEMENT OF THE FRENCH DEBT

London.—A tentative agreement for settling the French debt on 62 annual payments of £12,500,000 each was reached between the French government and the British government, which is the channel of the exchange and M. L. Caillaux, French finance minister. The total payments would thus be \$77,500,000, the original debt being £262,000,000. The whole agreement hinges, however, on what terms the French debt to the United States is repaid, and on whether the French Government agrees.

Mr. Churchill made it plain in a statement that the British were willing to go through with the bargain he and M. Caillaux have arrived at, only in the event that the United States agrees to reduce the French debt in proportion to the size of the two loans than Britain.

On the face of this agreement, it would seem that Britain is willing to forego receiving any of the principal of the sums the loan France provided that France slightly more than two per cent on their loan each year for 62 years—the time which it will take the British to pay their debt to the United States under the existing agreement.

## Germans Fight With French

Sixteen Thousand Germans Join French Foreign Legion

Paris.—Germans exactly half the total strength of the French Foreign Legion are in Morocco fighting the battle of France against the rebellious Moukha tribesmen.

Applications from former German soldiers to be permitted to lead their old to their former enemies in the fight against the Hittites are being received in such numbers that it is impossible for the French ministry of war to accept all of them.

## Justice Should Be For The Rich And Poor Alike

Winnipeg.—Declaring that justice should be swift, certain and open alike to rich and poor, Irish Lord Luckhurst, of Cheltenham, former Lord Chancellor of England, told the annual convention of the Canadian Bar Association that in his opinion, the legal profession deserved the reproach that while the poor man was sure of even justice from the bench, he was not sure to get it from the bar.

In speaking his remarks, Lord Luckhurst declared that the world was "still in the morning of time" and the forces which threaten society, were among the greatest, inveterate and constant, must justice prevail over the law."

Mr. Luckhurst's address was followed by tumultuous applause, with the audience rising to its feet and on the motion of Chief Justice Anglin, the distinguished Englishman was elected a member of the Canadian Bar Association.

"In speaking his remarks, Lord Luckhurst declared that the world was "still in the morning of time" and the forces which threaten society, were among the greatest, inveterate and constant, must justice prevail over the law."

No lawyer, he continued, should entirely separate himself from the law, but he should be a part of it, and his work to the administration of law only.

## Austria Chief Of Staff Dead

Commanded Forces On Russian Front During First Months of War

Vienna.—Field Marshal Baron von Conrad Hottendorff, chief of staff of the Austrian army in the World War, and late commander-in-chief on the Italian front, died Aug. 26, at Merano, in Wurlenberg, Germany.

Frans Conrad Von Hottendorff, born in Posing, a suburb of Vienna, Nov. 13, 1852, was chief of staff of the Austrian army when the World War began.

In the first months of the war, he commanded the Austrian forces on the Russian front, but lost prestige owing to the Russian victories in the early months of the conflict. In 1915, he was created with having planned the strategic preparations for the Austro-German attack which swept through the eastern front of the World War. He was promoted in rank for the recapture of Lemberg in that campaign.

When Italy entered the conflict, he was given command of Austria's forces on the Italian front. He served on that front until July, 1918, when he was given command of the Austrian forces in the Balkans, where he was replaced by Field Marshal Von Keopits.

## Make Good Nurses

Canadian Girls Are In Demand In United States Hospitals

Ottawa.—Colonel William A. McInnes, head of the Salvation Army activities in New Zealand, which includes the operation of a number of large hospitals and similar institutions, has discovered that Canadian girls, especially those coming direct from rural communities, make the finest kind of nurses.

He has since sought for them in the training schools, because they seem temperamentally fitted for the work, and have proven in most instances to be more adaptable to the requirements of the calling than girls born in the United States.

## Standard Phone System Advocated

National, N.S.—That the Telephone Association of Canada would be doing a national work if they brought about the adoption of standard methods of operation and apparatus which would make possible at some future time a universal telephone service was the point stressed by C. P. Rice, president of the Bell Telephone Company of Canada, at the business session of the Association.

U-Boat Blown Up

Copenhagen.—Another drama of the Great War ended at Velly Beach, on the West Zealand coast. The German submarine, U-29, credited with the destruction of the Lusitania, torpedoed and sank off the Irish coast, May 7, 1918, with a loss of 128 crew members, was blown up Aug. 25 by order of the Danish Admiralty.

## Heavy Rainfall Floods Toledo

Toledo.—Toledo was a result of almost 24 hours continuous rainfall. Electric lights, telephones and street car services were interrupted. Heavy rain in the section of the city is inundated, and thousands of homes have been flooded. Few casualties have been reported, but heavy damage is expected.

## Know In Fastlane

Edmonton.—Two feet of snow fell west of Rocky Mountain House, in the foothills of the Rockies last week, according to the estimate of the Canadian weather bureau. It is estimated that the period of delayed melting operations has been two weeks, so that the snow will not melt until the middle of the month. The crops south and west were flattened to the ground. Roads were impassable for a day or two.

**BUT**

*We are still at the front with our  
Harvest-Time Bargains*

*We now recommend*

**Pea-Meal Cottage Rolls**  
at 30c per lb.

**Picnic Style Shoulders**  
at 25c per lb.

**Champion's**

**Champion Meat Market**

### J. T. Stephenson

Phone 7 **GROCER** Phone 7

Last week for Peaches and Bartlett Pears.

Still plenty of Prunes and Plums.

Wealthy and McIntosh Red Apples in this week.

Cukes Pickling Onions  
Peppers  
Green and Ripe Tomatoes  
Celery  
on hand now.

### T. H. Bell Dies At Calgary

The death occurred at the Holy Cross Hospital, Calgary, on Monday afternoon of Thomas M. Bell. The deceased had been ill since the first of the year but continued at work until some three months ago when he underwent an operation at the hospital for cancer. While he never gave up hope himself to the very last, the disease had advanced so far that there was but little chance for his recovery. He was in his 38th year and had resided here for some years, and was widely known, operating a well drilling outfit and threshing. The funeral took place on Thursday afternoon.

An incipient blaze in the Champion Meat Market caused some excitement on Thursday evening. Prompt efforts on the part of the staff, assisted by a fire extinguisher from the bank, confined the damage to the engine and wiring. The cause of the fire, which started at the engine is a matter of conjecture.

C. E. Anderson has moved to the Williamson residence, and the house he vacated is being prepared for R. F. Nelson, who will move there shortly.

The Collegian Orchestra played here for a dance on Wednesday night and also at the picture show, making a decided impression.

For Sale—Small barn. Would make an excellent granary apply to W. C. Hoskins.

**For Sale**

A piano case organ, cheap for quick sale. Apply to Mrs. J. W. Carson.

### If You Want Land A Residence in Champion

**Insurance, or  
MARBLE WORKS OF ANY KIND**

I have some special snaps on hand, especially in town property.

One-half section near town well improved, \$25. per acre.

Three-Quarter section three and one half miles out, \$25. per acre.

Three-Quarter section two miles out, \$21. per acre.

These farms are well improved, and the best in the country, terms reasonable; call and investigate.

Who Want the Best

**Come as You Are**

**SAVOY CAFE**

**A Want Ad.**

**will do it.**

FALL

### Millinery Opening

FRIDAY AND SATURDAY

**September 4th and 5th**

Color is all important in Autumn modes. Upturned brim, piques and pokes predominate. The color of the hour is rosewood. Pansy, all shades of brown, navy, green and black are the leading colors.

A combination of velvet and feuille silk with metallic cloth is very effective.

In regards to trimmings, they are most beautiful this year, flowers and fancies also brilliant ornaments.

Be sure and not forget the date.

The largest display I ever carried.

**MRS. THERRIault**

### Notice to Parents

**Re Children of School Age.**

All children entitled to begin attending school during the coming year must be at school by Sept. 8th, after which no new pupils will be received.

Children who will be of school age (six years) by Jan. 1st next may begin now, but if not enrolled by Sept. 8 must wait until Sept. 1st, 1926.

**By Order of the School Board**
